His novel, The Big R: A Forensic Accounting Action Adventure, stars an internal auditor of the New York Yankees. He received the LCPA Lifetime Achievement in Accounting Education Award in 2007. A frequent speaker in the U.S. and internationally on forensic accounting and litigation services and Petroleum Accounting, he was the speaker of the 66th Annual Research Lecture, University of Melbourne, Australia in 2005, and he was an Erskine Fellow at the University of Canterbury (N.Z.) in 2007. He was the chair of the Teaching and Curriculum section of the American Accounting Association, and the founder of the American Taxation Association.

Marisa T. Déry (2 hrs) ABRE

Marisa T. Dery is Owner and Forensic Audio Analyst at the Audio Forensic Lab at Tamar Mastering, a forensic suite in the Boston area. She is also the principal consultant in Forensic Audio at ARCCA, a technology service firm, and until late 2010 served as an audio engineer at Harvard University's Audio Preservation Services. With 20 years experience in the audio industry, she has written several articles for Professional Sound and has served on several panels. She currently specializes in audio enhancement and authentication for the legal system and law enforcement at Audio Forensic Lab and has served as an expert witness. She is a member of the American Board of Recorded Evidence (ABRE) at the American College of

Forensics Examiners Institute (ACFEI) where she is the current Audio Authentication Chair, as well as an Audio Enhancement Committee member. The ABRE (www.abreboard.com) consists of scientists and engineers who examine audio and video recorded evidence in order to determine authenticity, identify the voices or images of individuals in the recordings, and indicate the evidentiary value to this recorded material. The members of ABRE may be called upon to utilize their expertise in both civil and criminal proceedings, and in the course of their work they may assist government agencies, law enforcement agencies, prosecutors, defense attorneys, and plaintiff and defendant lawyers on the civil side. She is a voting member at The Audio Engineering Society (AES), the National Academy of Recording Arts and Sciences (NARAS), and the Canadian Academy of Recording Arts and Sciences (CARAS). She is also a member of the National Association of Investigative Specialists (NAIS). In 2008, Marisa T. Dery was the 1st prize winner in the Non-Group (Single) Category in the Audio Enhancement contest at the AES 33rd International Conference in Denver, USA. She is a part of the Community Emergency Response Team (CERT) in the Boston area as part of the Medical Reserve Corps where she has trained as a volunteer in multiple exercises to help law enforcement in their training.

Barry G. Dickey, DABRE, FACFE (0.0 hr) ABRE

Barry G. Dickey is the certified forensic expert for Audio Evidence Lab, a laboratory specializing in the analysis of audio/video evidence. With over 20 years of experience, Mr. Dickey has provided testimony in federal and state courts on issues involving audio, video, and voice identification. His responsibilities include audio/video authentication, digital enhancement/restoration, voice identification/elimination, speech/phonetic analysis, and transcription of evidentiary recordings. In association with The American College of Forensic Examiners, Mr. Dickey has served on the Executive Committees for both the Forensic Audio and Forensic Video Divisions of the American Board of Recorded Evidence. Since 1993, he has examined evidence relative to civil and criminal matters in more than 1500 cases in the USA, Canada, Mexico, Europe, Japan, Philippines, and Puerto Rico. Utilizing DSP technology, analytical equipment, and microscopic resolution, Mr. Dickey employs scientifically accepted techniques to provide the critical evidence required in the courtroom. Discrete and sound judgment is applied to each client's case. Free initial consultation.

Forensic cases involving Mr. Dickey have been featured on The Learning Channel's "Science Frontiers", "Forensic Files", CBS, NBC, "America's Most Wanted", TruTV, US News & World Report, and Fox 4 News Networks. He has consulted with news agencies in reference to the "Osama bin Laden Tapes" and "2012 Presidential Debates" as well as other recordings released through foreign news networks. Recent cases also include the "NFL Bountygate" investigation, "Holy Land Foundation", and the "Innocence Project".

Clientele include US Government, Foreign Government Agencies, State & District Attorneys, US Military Forces, Judicial Committees, Civil & Criminal Attorneys, Corporate Law Firms, Federal & State Public Defenders, Innocence Project, Insurance Companies, News Broadcast Agencies, and Private Investigators.

Jim Duncan (0.5 hrs) ABRE

Jim has worked in the audio industry as a sound engineer for 20 years. This consisted of digital recording of music, applying filters, and mixing sound. Prior to his employment with Stutchman Forensic Lab, Jim also worked in the criminal justice system since 2001, as a Police officer and Swat officer. He is currently a forensic analyst with Stutchman Forensic Lab and started his employment in February 2013. His education and training in forensic technology has continued progressively. In addition to his formal training in audio forensics, Jim has received extensive in house training by Chief Forensic Analyst Gregg Stutchman and Forensic Analyst Steve Buller. Jim has conducted forensic analysis, enhancement, and audio authenticity on several hundred evidence recordings. As a police officer he testified for 10 years in the Napa Superior Court on a wide range of cases. Jim has testified on multiple Gang cases, worked on the Gang unit, reduced Gang violence in the Middle Schools, and was considered a Gang expert. He was also a police training officer, responsible for training new officers.

Margaret Erickson, PhD, RN, MSN, CNS, APRN, APHN-BC, Executive Director, AHNCC (5 hrs) AAIM

I have worked in holistic nursing for 35 years in various healthcare settings, including, but not limited to, Adult Health, ICU, Newborn Nursery, Labor and Delivery, Independent Practice, Mental Health, Academics, Long Term Care, and Case Management using theory-based nursing practice to facilitate holistic health and well-being from a spirit- mind-body-emotions perspective. During that time I worked to help nurses and other healthcare providers learn how to transform the care they offer, based on a medical illness-disease model, to a holistic-based practice. I have also facilitated institutions in implementing Holistic Nursing theory-based practice. My current job requires that I work with universities interested in developing holistic nursing curriculum for undergraduate and graduate nursing programs. I have also taught undergraduate and graduate nursing courses that help students understand holism and learn how to implement a holistic theory-based practice. I am currently Executive Director of the American Holistic Nurses Credentialing Corporation (AHNCC),

Edeaghe Ehikhamenor, BDS,MSc,PhD (4.5 hrs) ACEFI

He is the author of the forthcoming book, *Functional Gait Analysis and Correction for the Busy Clinician, Volume 1*.

Alex Kwechansky, DABFA (3.5 hrs) ABFA

Alex Kwechansky is a Diplomate, certified specialist in business fraud discovery and prevention, in accordance with the American Board of Forensic Accounting. He has been conducting business fraud investigations and crisis management since 1972. His work focuses on fraud discovery, resolution and financial distress for companies and individuals.

Eugene Landa (0.5 hrs.) ABRE

Eugene Landa will lecture on EdiTracker, a unique plug-in for SIS II and is designed to provide audio authenticity analysis. Paired with SIS II functionality it significantly increases its capabilities in terms of identifying modified, edited or doctored audio.

EditTracker provides automation of all operations related to the search and analysis of suspicious areas of phonogram fragments and calculation of a recorder's technical specifications. It makes possible to visualize all the steps of research and gives you an opportunity to generate text reports of the entire research or each kind of analysis separately, which also may be used in the court as a part of expert's or specialist's report.

EdiTracker speeds up the process of your forensic analysis and increases the reliability of expert conclusion. This workshop will explain key features in the software and how to set the parameters properly.

Ross Leo (2 hrs) ABCHS

Mr. Leo has been in Information System for 35 years, and an Information Security professional for over 30 years. He has worked internationally as a Systems Analyst/Engineer, and as a Security and Privacy Consultant. His past employers include IBM, St. Luke's Episcopal Hospital, Computer Sciences Corporation, and Rockwell International. A NASA contractor for 22 years, he was from 1998 to 2002, he was Director of Security Engineering and Chief Security Architect for Mission Control at the Johnson Space Center. From 2002 to 2006 Mr. Leo was the Director of Information Systems, and Chief Information Security Officer for the Managed Care Division of the University of Texas Medical Branch in Galveston, Texas.

He has trained and certified nearly 7500 professionals in Information Security and Privacy since 1998, and since 2004 Mr. Leo has been involved in the development and evolution of a standardized industry curriculum in HIPAA Compliance, and continues this vital work today.

As a published author, his industry standard guide, **"The HIPAA Program Reference Handbook"**, was published in January 2005.

Mr. Leo serves as a member of university advisory boards overseeing programs in the Information Assurance and Engineering areas; including Texas State Technical College, DeVry University, and Voorhees College. Mr. Leo is on the Adjunct Faculty of and serves as Associate

Director of Professional Training and Development for the Cybersecurity Institute at the University of Houston-Clear Lake.

Mr. Leo is a Board Member of the National Board of Information Security Examiners (NBISE), The American Board for Homeland Security (ABCHS), and the American Board of Forensic Engineering and Technology (ABFET) for The American College of Forensic Examiners International, and chairs the American Board for Information Security and Forensics (ABISCF). Mr. Leo holds certifications from each of these organizations.

Mr. Leo attended Graduate School at the University of Houston, and Undergraduate school at Southern Illinois University. Born in Anaheim, California, Mr. Leo has lived in Texas since 1980.

Howard J. Levine, CPA (2 hrs) ACFEI

Howard's CPA firm provides expert accounting and tax services to a unique group of clients nationwide. These clients range from small retail businesses, physicians and a variety of service businesses to nonprofit organizations and private foundations with budgets from under \$100,000 to assets over \$100 million. Eric Ord (1 hr) ABRE

Director of Sales, MIL/LE, Amped Software.

Jennifer E. Owen, BA, MA, DABRE, DABFE (1 hrs) ABRE

Jennifer Owen has worked in the forensic audio and video field since 1995. She began her forensic career by working under the tutelage of her father, Thomas J. Owen, renowned

international Forensic Analyst. Jennifer has completed numerous Forensic Audio, Video and Voice Identification trainings and is currently a member of The American College of Forensic Examiners and is on the board of The American Board of Recorded Evidence. Throughout her training and career, Ms. Owen has lectured and co-presented at seminars throughout the United States with Thomas J. Owen. Owen Forensic Services concentrates on all Audio and Video analysis, as well as Voice Identification. O.F.S.'s work has resulted in countless successful outcomes for both the prosecution and the defense.

Thomas J. Owen, BA, FACFEI, DABRE, CHS-V (1 hrs) ABRE

Thomas Owen serves as the Chairman of the Audio Engineering Society's Standards Group SC-03-WG-12 on Forensic Audio. Mr. Owen is also the Chairman Emeritus of The American Board of Recorded Evidence. Mr. Owen Worked at New York City's Lincoln Center Archives for eleven years as Chief Engineer. He has appeared on network television and on radio discussing audio and video matters. Mr. Owen Lectures extensively in the United States and has numerous publications in the Forensic Examiner. Mr. Owen's qualifications as an expert witness have been demonstrated in more than thirty-five states for both prosecution and defense. Mr. Owen has diligently and comprehensively examined the areas of Forensic Audio, Video, and Voice Identification in great detail since 1981. There are over seventy-five publications, presentations, and recordings available from the Audio Engineering Society, The American College of Forensic Examiners and others. Mr. Owen has appeared as a Consultant to ABC Nightline, NBC, CBS, CNN, MSNBC, FOX 5 NY, NPR Radio, NOVA, Taipei, Chinese Television, Dateline, 60 Minutes, Law & Order, Forensic Files, CSI, CSI Miami, Lie to Me, Access Hollywood, 48 Hours, 20/20 and other Networks and Television Programs.

Chrys Parker, Rev., Dr., J.D., ACPE-CM, AAPC-PCS, D-AAETS, CFT, C-ABF, C-ABPC, APA Fellow (3.5 hrs) APA

Rev. Dr. Chrys Parker is a nationally known clinical, academic and forensic authority on PTSD. During her 38 year career in mental health, ministry, forensics, allied medical services, the law, and military training, she has authored over 100 professional conference presentations and instructed over 15,000 personnel. As the first civilian chaplain clinician to deploy to a combat theater, and as an educator to over 5000 active duty military members and over 1000 physicians, Chrys has an especially keen grasp of the widely misunderstood "territory" in which the medical, biophysiological and psycho-emotional mechanisms of PTSD intersect, and has developed unique methods for teaching this subject in memorable and understandable ways. She maintains a private trauma treatment practice in San Antonio, where she teaches at the UT Health Science Center, and also works in partnership with Dr. Glenn Sammis as co-director of the Home Coming Initiative program for veterans and families. She is the co-author of the book "I Always Sit With My Back To The Wall: Managing Traumatic Stress and Combat PTSD."

Nicki Ann Pike, MSW, PsyD (2 hrs) APA

Dr. Pike is a Licensed Clinical Social Worker and holds a doctorate in counseling psychology. She has been in practice for more than 25 years and has been designated as a Fellow by the American Psychotherapy Association as well as a Master Therapist. In her private practice, she

works with individuals, couples and families. She enjoys lecturing and provides trainings throughout the country on a number of topics including, self-care for helping professionals, mindfulness and self-compassion, the psychosocial impact of living with cancer, and issues related to the well-being of first responders and their families.

Fausto Poza (0.5 hrs) ABRE

Since 1971, Mr. Poza has served as a consultant to the law enforcement and legal community in matters of speech science and audio tape analysis. He has testified over 70 times in state and federal courts on such matters as voice identification, acoustic identification, tape authentication and transcription analysis. In 1976 he was appointed technical consultant to the National Academy of Sciences Committee on Evaluation of Sound Spectrograms. This committee was commissioned by the FBI to evaluate the state of the art of speaker identification techniques. Mr. Poza was involved in every phase of the two year study which, in 1979, resulted in the publication of the monograph, "On the Theory and Practice of Voice Identification." Following his 23 years as a research scientist at SRI International, Mr. Poza continued to serve that organization as a consultant in speech science. Mr. Poza also provides his expertise to GW Instruments of Sommerville, Massachusetts, as a Speech Science consultant for their line of speech software products. In 1993, Mr. Poza co-authored a 600-page treatise detailing the technical and legal nature of forensic audio recordings, as well as the practice of forensic audio experts. Appearing in Volume 48 of Lawyers Cooperative Publishing's Am Jur Trials, this work represents the most comprehensive, in-depth, and authoritative review of this subject matter ever undertaken. In 1995, Mr. Poza co-authored a related 200 page treatment of Voicegram ("Voiceprint") Identification. This article, which was released in Volume 54 of Lawyers Cooperative Publishing's Am Jur Trials, provides an equally in-depth, comprehensive, and authoritative analysis of forensic Speaker Identification.

Jeff Price (3 hrs) ABCHS

Jeff Price is an Associate Professor of aviation at the Metropolitan State University of Denver, the owner of Leading Edge Strategies, an aviation management training company and the lead author of Practical Aviation Security: Predicting and Preventing Future Threats (now in its second edition).

An internationally recognized aviation security expert, Jeff is frequently the first call from CNN, USA Today, ABC News, NBC, CBS, the Associated Press, the BBC, and others, to help explain aviation security and safety issues. He also served as an expert witness on the 9/11 case.

A former US Coast Guard Officer, Jeff started his aviation career in airport operations at **Denver's previous airport, Stapleton International Airport, then was the assistant security director at Denver International Airport when the airport opened in 1995. He then went on to become the Airport Director at Rocky Mountain Metropolitan Airport, Colorado's 4th busiest airport.**

He has been a professional aviation management trainer for the past 14 years teaching over 1,000 Airport Security Coordinators and over 800 TSA Security Inspectors. He has authored several certification programs on aviation security and airport management, in addition to being a regular contributor to Aviation Security International magazine.

He is a commercially certificated pilot and holds a Bachelors degree in Professional Pilot from MSU Denver, and a Masters in Curriculum and Instruction from Colorado Christian University. He is a Certified Homeland Security Level I, a Certified Protection Professional, and is developing an aviation security certificate program for ABCHS. He has also just been contracted by his publisher to write another textbook titled: Airport Operations, Safety and Emergency Management.

Edward J. Primeau, CFC, CCI (1.5 hrs) ABRE

Mr. Primeau, founder and CEO of Primeau Forensics, Limited and author of *That's Not My Voice!* has been practicing audio and video forensics for 30 years. He is a member of AES, ACFEI, and IAI and is a Certified Criminal Investigator (CCI) and a Certified Forensic Consultant (CFC), as well as a member of the American Board of Recorded Evidence with the American College of Forensic Examiners International. Visit www.primeauforensics.com for more information.

George Reis (1 hrs) ABRE

George Reis is the President and owner of Imaging Forensics, Inc. and has been providing training and expert witness services in forensic image analysis, forensic video analysis, and forensic and technical photography since 1995. Reis worked from 1989 to 2004 at a southern California police department, as a forensic photographer, image analyst, crime scene investigator, and latent fingerprint examiner. He introduced digital imaging to that agency in 1992, making them one of the first law enforcement agencies to utilize this technology. Reis is certified in forensic photography and imaging by the International Association for Identification, and is the current Chair of the Forensic Photography and Imaging Certification board of that organization. Reis is author of the book, *Photoshop CS3 for Forensic Professionals*, published by Sybex. He also authored a white paper on the integrity of digital images, and numerous articles for publications including *Evidence Technology* magazine and *Law Enforcement Technology* magazine. Prior to working in forensics, **Reis' background** includes time working as a photojournalist, working in a commercial photography lab, and working as a freelance photographer.

John Robbins, P.E., CFC, FACFEI, DABFET (1.5 hrs) ACFEI

John A. Robbins is a registered professional engineer in the states of Florida and North Carolina with 40 years experience as a consulting engineer. He has provided expert witness testimony in the fields of forensic, civil, environmental, utility, public works, sanitary and audio engineering. Mr. Robbins is a Certified Forensic Consultant, a professional member of the Institute of Food Technologists, lifetime member of the American Water Works Association, has over 30 years of experience as a continuing education provider and has been a member of ACFEI since 1999. Mr. Robbins holds two U.S. patents for the invention of the Electric Pulse process for the reduction of micro-organisms in various mediums. Mr. Robbins is an award winning musician and producer and a former World Skydiving Champion and private pilot.

“My work in Forensic Engineering involves many types of engineering investigations. One of my most notable forensic investigations was related to a failure on start-up of a new water treatment facility which was owned by a private utility company. The private utility company contracted with a design/build contractor to construct a new membrane treatment facility which was to meet new Drinking Water Standards for Disinfection By-Products (total trihalomethane and halo acetic acids). John A. Robbins, P.E., was retained as an Attorney **Work Product to determine the cause of the facility’s inability to meet the new Drinking Water Standards and to redesign the facility so as to achieve compliance with the water quality standards.** A water quality sampling protocol was developed and a water quality profile across treatment units was completed along with review of historical water quality data, original design drawings, reports and calculations. The investigation revealed the wrong type of membrane technology was originally designed and constructed. As a result, the treatment facility was redesigned and the appropriate type of reverse osmosis membrane treatment units were installed and the facility achieved compliance with all water quality regulations. Litigation was initiated between the private utility and the design/build contractor and original design engineer. **The private utility settled the case with the defending parties.”**

Jay Shapiro, CPA, CFE, DABFA (2 hrs) ABFA

Jay Shapiro has over thirty-seven years of entertainment accounting experience. His specialty involved forensic review of production and distribution of motion pictures and television programming on behalf of all third-party profit participants, including talent and investors. He frequently gives expert testimony in litigation proceedings involving entertainment claims and other economic damage issues.

Jay was the National Partner for Entertainment and Media Industries at Laventhol & Horwath before founding Sunrise Media Group in 2002 and is a CPA, MBA, DABFA, CFE, as well as a frequent lecturer at UCLA, USC, and ASU on financial and accounting matters.

C. David Shepherd, (3 hrs) ABCHS

Retired FBI with emphasis in SWAT, Counter-Terrorism, Fugitive; former Executive Director of Security at the Venetian Resort Hotel Casino, Las Vegas, NV; former co-chairman for Resort under the Commercial Sector Coordinating Council; former member Partnership for Critical Infrastructure Security (PCIS); and former invited member Real Estate Round Table Terrorism Working Group. Have taught active shooter classes in over 40 cities and continuously developing new courses to coordinate preparedness, mitigation, response and recovery programs for businesses and first responders.

Colonel William Smullen (4 hrs) ABCHS

Bill Smullen was appointed as the Director of National Security Studies at the Maxwell School of Citizenship and Public Affairs in June of 2003. He is also Maxwell’s Senior Fellow in National Security and a member of the faculty of Syracuse University’s S.I. Newhouse School of Public Communications as a Professor of Public Relations.

Prior to his appointment at Syracuse University, he was the Chief of Staff to Secretary of State Colin L. Powell beginning in January 2001. As principal advisor to the Secretary, he was responsible for monitoring and evaluating the formulation and implementation of

departmental policies. He was also involved in the planning and development of concept strategy associated with foreign policy matters.

A professional soldier for 30 years, he retired from the U.S. Army in 1993. His military career included a series of infantry and command and staff assignments at the platoon, company, battalion, brigade and division level.

His last assignment on active duty was Special Assistant to the eleventh and twelfth Chairmen of the Joint Chiefs of Staff, Admiral William J. Crowe, Jr., and General Colin L. Powell. Upon leaving active duty, he became the Executive Assistant to General Powell, assisting with the writing and promotion of his best-selling autobiography, **"My American Journey,"** published in 1995. From 1993 to 2001 he had daily responsibility for managing the General's private office and professional activities. Beginning in 1997 he doubled his responsibilities by becoming the Chief of Staff for America's Promise which General Powell chaired from May 1997 to January 2001.

He earned a Bachelor of Arts Degree in Business and Economics from the University of Maine in 1962 and a Master of Arts Degree in Public Relations from the S.I. Newhouse School of Public Communications at Syracuse University in 1974.

An accomplished speaker, he appears before audiences nationwide on subjects of contemporary and topical interest. Featured topics include those from his book, **"Ways and Means for Managing Up,"** which was published in 2014 by McGraw-Hill.

Ben Solhjem (1 hr) ABRE

With MotionDSP, a California-based software company making advanced, real-time, GPU-accelerated image processing and computer vision software for forensic and ISR (Intelligence, Surveillance, and Reconnaissance) applications in the government and commercial markets.

Donald E. Sparks, CISA, CIA, ARM (4 hrs) ABFA

Don Sparks brings more than 30 years of experience in finding significant errors and fraud using data analysis software to his role as Vice President at Audimation Services. Don has 24 years of experience in the property casualty insurance industry including, 12 years as a chief audit executive and corporate director. He also served as assistant Vice President for The Institute of Internal Auditors (IIA) where he was responsible for reviving the Global Auditing Information Network benchmarking services. While at the IIA, Don created online forums for chief audit executives, which quickly grew into a network of nearly 2,500 active participants and hosted webcasts on topics such as, "The Internal Auditor's Role in Sarbanes-Oxley Act of 2002." Most recently, Don served as a director with RSM McGladrey where he worked with several clients to achieve SOX 404 IT compliance controls. Don joined Audimation in 2006 to share his extensive internal auditing and technical expertise with IDEA users by leading user group sessions, writing white papers and maintaining relationships with industry associations. In his current role, Don helps companies improve their internal audit function and recover from fraud. Don earned a B.S. in accounting from Eastern Illinois University. He is a member of The IIA and currently serves on the Advanced Technology Committee, and a member of the Information Systems Audit and Control Association (ISACA) where he where he currently serves as Vice President of the Orlando Chapter and volunteers on the International Education and Dissemination Committee. While Don is well known in the

industry for tracking fraud, he is also known as a track star for earning the designation of NCAA All-America in cross country.

Jeff Spivack (4.5 hrs) ABRE

Jeff Spivack is a member of the International Association for Identification (IAI), serves on the Digital Evidence Science and Practice Subcommittee, and is the tenth person worldwide to attain the IAI's designation as a Certified Forensic Video Examiner. Prior to resuming private practice, Jeff was employed as a Forensic Multimedia Analyst with the Las Vegas Metropolitan Police Department. In addition to providing legal video litigation support for Coherent Legal Video, Jeff is also Cognitech, Inc.'s Senior Forensic Video Software Certification Instructor. In this position, Jeff developed and delivers the current certification training course at Cognitech's Pasadena, CA headquarters and on-site at customer locations, most recently at the FBI Forensic Audio, Video, and Image Analysis Unit at Quantico, VA. Jeff is also the Director of Program Development for Digital Summit International, a non-profit organization, recruiting presenters for workshops and lectures from leading experts in computer, mobile device, video, audio, and photographic digital forensics for DSI's annual conference in Las Vegas, NV, with additional training currently in development. Jeff has been accepted as an expert witness in legal proceedings throughout the United States, and has provided presentations at Digital Summit International's annual educational conference, and at local chapters of the High Technology Crime Investigation Association (HTCIA), and National Technical Investigators Association (NATIA).

Dorothy Stout (1 hrs) ABRE

Dorothy Stout is owner of Resolution Video Inc. which provides training on Forensic Video Analysis and services for the examination and analysis of video evidence. She has been involved in Forensic Video Analysis since 1998 during her career with the U.S. Postal Inspection Service and also performed as a Forensic Video Analyst for the U.S. Department of Defense Computer Forensic Laboratory (DCFL). She has worked with the International Association of Chiefs of Police (IACP) and the Security Industry Association (SIA) as a forensic video/digital video technical consultant. Ms. Stout has been qualified as an expert and testified in all levels of the United States Courts and continues to offer expert testimony in civil and criminal cases involving video evidence. She has taught as an Adjunct Professor at the George Washington University, in Washington, DC, the University of Indianapolis, and the British Columbia Institute of Technology. Ms. Stout holds a Masters Degree in Forensic Science and a Bachelor Degree in Psychology.

Gregg M. Stutchman (1 hr) ABRE

Gregg Stutchman is the Chief Forensic Analyst for the Stuchman Forensic Laboratory and has worked in the criminal justice system since 1973 as a police officer, a State Licensed Investigator, and since 1992 as a forensic analyst when he opened the lab. Gregg has progressively continued his education and training in forensic technology, staying on the cutting edge of new advances in his field. Over the past 16 years he has conducted forensic analysis on several thousand audio and video recordings. His expertise also includes all phases of forensic photography and image analysis. His goal in every case is revealing truth.

His work and testimony as an expert witness are known and praised as being extremely effective, whether retained by the defense or by the prosecution. He has worked on such high profile cases as People v. Robert Blake, and the Michael Jackson case. He testifies extensively as an expert witness throughout the United States in state and federal courts as well as in depositions.

Scott Tucker, BComm, MBA, A+, Sec+, ACE, CFC, ACFEI Diplomate (2 hrs) ACFEI

Scott Tucker is a digital forensics practitioner in Salt Lake City and an adjunct instructor at the University of Utah, where he teaches a class in Digital Forensics, IS6571, in the MSIS program. Mr. Tucker has been immersed in the technology industry since the dawn of personal computing in the early 1980s. As the product manager and designer of the venerable Lotus 1-2-3 spreadsheet, Mr. Tucker was granted a patent and published several books on spreadsheet programming. More recently, he has been an expert witness in high profile litigation and currently consults on digital evidence.

Don Tunstall (1 hr) ABRE

Don Tunstall is President and General Manager of Salient Sciences, since 1989 has led the development of numerous audio clarification and collection devices and software products for the law-enforcement and intelligence communities. Since 1998, Don has conducted the **company's "DAC School" audio training classes, which have been attended by hundreds of forensics experts worldwide.** Since the acquisition of Salient Stills by Digital Audio Corporation in 2013, Don has **shepherded the integration of the two companies' forensic video and audio businesses under the new Salient Sciences name.** A graduate of North Carolina State University, with a Bachelor of Science in Electrical Engineering, Don is a member of the Audio Engineering Society and resides in Cary, NC.

Thomas Ueno, CPA, Cr.FA (1.75 hrs) ABFA

Thomas Ueno has been a forensic accountant since 1982 while working for Grant Thornton. He is an instructor in the capstone project for graduates in business.

Reuben Vaisman-Tzachor (4.5 hrs) ABCHS, ACFEI, APA

Reuben Vaisman-Tzachor, Ph.D., FACFEI, DABPS, FAPA, CHS-III. Served in the Israeli Navy between 1977 and 1983, where he graduated from the Naval Officers Academy and from the Officers School for Command. He obtained a Captain rank and was a missile cruiser Deck and Weapons Section Commanding Officer and a patrol gun ship Commanding Officer. He was engaged in counterterrorism military operations in the Mediterranean for 6 years, including participation in the 1982 war in Lebanon.

Functioned as Supervisor of terrorism prevention operations for the Israeli Government terrorism prevention agency in the North Western American continent, encompassing western Canada and US and all of Mexico between the years 1986 and 1992.

Obtained his doctorate in clinical psychology from the California School of Professional Psychology in Los Angeles in 1993. He is a Fellow at the American College of Forensic Examiners Institute in Clinical and Forensic Psychology, a Diplomate of the American Board of

Psychology Specialties, a Fellow at the American Psychotherapy Association, and he is certified in Homeland Security Specialty at Level-3.

He has been an adjunct professor of doctors of clinical and forensic psychology programs at Alliant International University, at National University, at The Chicago School of Professional Psychology in Los Angeles, California and an adjunct professor of clinical psychology at Argosy University and Antioch University in Los Angeles, California for 23 years.

He has conducted research and published numerous articles starting in 1991 on various topics involving psychological aspects of terrorism prevention, psychological profiles of terrorists, and profiling terrorists.

In 2001 he was recruited by Sandia National Laboratories in Albuquerque, New Mexico to lead a research study with a grant from the Departments of Defense and Energy on terrorism.

Between 2002 and 2004 he produced a research-based national terrorism prevention protocol that was submitted to the George W. Bush White House staff and subsequently adopted by the FBI Academy as part of the official curriculum.

He is the director and owner of the Counseling Center of Santa Monica – A Psychological Corporation, a private practice in Santa Monica, California and he is an attending psychologist at Cedars Sinai Medical Center in Los Angeles.

In 2012 he published “The Book of Terrorism” with Cambridge Brick House publishing company in Boston Massachusetts, which encompasses his experiences and knowledge in this area.

James P. Waltz, (1.5 hrs) ACFEI

Mr. Waltz is a registered mechanical engineer who practices in the field of facilities engineering, specializing in investigation and analysis of the infrastructure systems in existing buildings as well as the development, design, and implementation of facility remediation, restoration, and energy efficiency projects. Typical clients include hospitals, universities, large commercial buildings, and federal, state and local government facilities. Besides being a Fellow of ACFEI, he is also a founding member and Hall of Fame honoree of the Association of Energy Engineers. His forensic practice experience includes over 50 (plaintiff and defense) cases including construction defects, related personal injury, economic damages, professional liability, and related criminal matters.

Mr. Waltz's credentials include BSME and MBA degrees, professional engineering registration in three states, founding member, Certified Energy Manager (CEM) and Green Building Engineer (GBE) of the Association of Energy Engineers (AEE), member of the Demand Side Management Society (DSMs) and the American Society of Heating Refrigeration and Air Conditioning Engineers (ASHRAE), and is a Board-Certified Forensics Engineer and Fellow of the American College of Forensic Examiners. A noted speaker and widely-published author, Mr. Waltz was named International Energy Engineer of the Year for 1993 by the Association of Energy Engineers and elected to AEE's Hall of Fame in 2005, has taught performance contracting and building simulation seminars for AEE (and published books on both these topics through The Fairmont Press), teaches/taught engineering courses at the University of California, Berkeley and San Francisco State University, serves on the Editorial Advisory Board

for HPAC Engineering magazine, and was a member of the DOE's 1997 International Performance Measurement & Verification Protocol (IPMVP) Technical Committee.

"One of the most interesting cases for which I have provided forensic engineering services regards a county courthouse that was undergoing seismic retrofit. Unfortunately, the project manager and construction manager mishandled the work, which resulted in the exposure of the building occupants to asbestos released during the construction-related work. This case started with criminal charges pursued by the State attorney general's office, followed by multiple suits filed by the building occupants, and concluding with a lawsuit filed by the County against the project manager and construction manager. The case(s) required field investigation, research and analysis of correspondence and case documents, interviews of percipient witnesses, report writing, preparation of demonstratives, and deposition. To date, all matters have been settled out of court."

As regards the ACFEI, Mr. Waltz states: "The designation of being a board-certified forensic engineer of the ABFET has served me well when interviewed by counsel on prospective cases, and when undergoing voir dire prior to providing testimony. The professionalism and stature of the ACFEI has materially contributed to the success of my forensic practice."
